## DRAW A PORTRAIT

---

Be inspired by portraits that Theo Schoon and Rita Angus did of each other in *Split Level View Finder*, then create your own. Portraits can be of your friends or whanau, or a self-portrait.

**CHOOSE** a frame template to draw inside.

**DECIDE** if you want to draw yourself or a friend.

**START** by drawing an oval shape for your face.

**THINK ABOUT** all of the different parts in a face: the eyes, ears, nose, mouth, checks, eye brows and lashes, chin. Is their hair curly? Long?

**ASK** do they have an interesting hairdo? Jewellery? Glasses? Hat?

**CONTRAST** try shading and making some areas stand out more with bolder outlines than others, try crosshatching and complete with a little colour.

**PIN UP** your portrait in your home.

**Well done on completing your portrait!**
